

**APPLICATION SERVER COMPONENT THAT NOTIFIES ONE OR MORE
COMMUNICATION DEVICES OF ONE OR MORE INVITATIONS TO JOIN
COMMUNICATION SESSION**

ABSTRACT

5 An application server component of an apparatus in one example receives an
indication of one or more communication devices that are to receive one or more
invitations to join a communication session. The application server component notifies
the one or more communication devices of the one or more invitations to join the
communication session. Upon acceptance of one or more of the one or more invitations
10 by one or more of the one or more communication devices, the application server
component connects the one or more of the one or more communication devices to the
communication session.
